WHS: Please take care while using the central steps as we await the installation of the new handrail and fencing.

FROM THE PRINCIPAL

Dear Families,

Thank you to all of the families who ensured that children arrived at school today in clean and tidy uniform ready for school photos. It was wonderful to welcome our Play Centre children to join us for the school photo. Photos will be sent home as soon as they are available.

Character Day was a great deal of fun on Wednesday as students dressed up to celebrate Book Week. There were fairies and leprechauns, superheroes and vagabonds, and a number of students on the loose from Hogwarts! Celebrating Book Week is an annual event for schools across the country. Students have been enjoying the shortlisted books. Thank you to Kelly Smith for ordering these ready for class activities this week and thank you to Di Nankivell for organising the *Passport to Everywhere* activities. Student work will be on display as part of our Open Day.

We are looking forward to welcoming families and friends to our Open Day from 9:00-11:00am on Monday. Peer Mediators will be leading tours of the school for visitors. A number of activities will be happening in the classrooms creating an opportunity for families to share some learning experiences with their children. Please remind grandparents and locals who might be interested in attending this event. This is a chance to show case our school, welcome new families and invite the community into the school. Come and have a chat over a cuppa. Thank you to the many families who have contributed to the day by providing morning tea and sending out invitations.

The smell of jasmine is filling the air announcing the arrival of the Spring. Students are enjoying having the warm sunshine at play times after a week of rain. Have a lovely weekend,

Joyce Dinan
Principal

BOOK WEEK 2017

Everyone looking fantastic in their Book Week costumes!

Can you name them all?

ELANORA

Hope you are all well and have had a great couple of weeks!

Last Wednesday, we had our first visit to Elanora for the term. The residents were all very excited to see us and enjoyed catching up with the students after the holiday break. To coincide with our Book Week activities the students took some of their favourite books to Elanora. The younger students shared some lovely picture books while the older students read some pages of their book to the residents. After reading, we spent the rest of the afternoon making bookmarks.

It was lovely to see the students helping the residents with their colouring in and the positive interaction that was taking place. The students enjoyed a drink and a biscuit before returning to school. Well done to all the students once again for their respectful and caring behaviour!

CHARACTER DAY

Wasn't it great to see all of our students making such a great effort to come dressed as their favourite Book Character on Wednesday. From Harry Potter, Hermoine, Thing 1 and Cat In The Hat to fairies, princesses, pirates, Wally and vagabonds we had an amazing array of colourful and clever costumes! Thankyou to all the parents for getting on board and helping your children come up with such great costumes!

Thankyou also to all the families who sent in a gold coin donation.

We raised \$25.50 to add to our fundraising tally for "Sunrise Cambodia"

MOVIE NIGHT

Next Thursday night, 31st August, we will be having a movie night here at school. Please see the attached flier for details. As the movie "Moana" is rated PG it is a requirement for us to gain parental permission for your child to view this movie. Please fill in the attached permission slip and return to school next week.

Please note also that students are allowed to bring water only to the movie night. We will be supplying popcorn to eat during the movie so please do not bring lollies, chips etc. Feel free to dress your child in their pyjamas and bring along a pillow, blanket or bean bag so they are comfy!

Contact me at school if you have any questions or concerns!

Have a Great Week!

Di

Dear Parents,

For a number of years some students from Yorke Peninsula have been receiving dental care through an arrangement between SA Dental Service and Dr Hackett at his Yorketown practice.

Dr Hackett has announced his retirement and we thank him for the wonderful care he has provided for SA Dental Service clients.

Students will now be directed to the following clinics for their dental care.

Maitland Area School
Junction Road
MAITLAND 5573
phone 8832 2254

or

Wallaroo Hospital
Ernest Terrace
WALLAROO 5556
phone 8880 5210

for more information visit
www.sahealth.sa.gov.au/sadental

Dental care is FREE for ALL babies, preschool and most children under 18 years at School Dental Service clinics.
The School Dental Service is a Child Dental Benefits Schedule provider.

Alternatively, you may choose to contact your local private dentist.

TUTORING AVAILABLE

Does your child need individual support with reading, writing, or spelling skills?

After school Literacy coaching available.

Retired JP/Primary teacher.

Leanne Baillie, Stansbury.

Reasonable rates.

Information and communication technology (ICT) capability

The Australian Curriculum general capabilities are designed to develop the knowledge, skills, behaviours and dispositions that help children and young people live and learn successfully now and in the future. The capabilities are developed through the learning areas from reception to year 10.

Many students are growing up with the internet and technology as a normal part of life. Information and communication technology (ICT) in the Australian Curriculum captures the way technology is used in our world, and aims to help students use technologies to enhance their school and community lives. They learn to develop and apply these important skills and social and ethical practices in the specific learning areas.

There are 5 parts to the ICT capability:

- applying social and ethical practices when using ICT – recognising intellectual property, maintaining security and safety in online environments and identifying the impacts of ICT in society
- investigating with ICT – locating, generating and accessing data and information to investigate questions, topics or problems using ICT
- creating with ICT – generating ideas, plans and processes to create solutions to challenges
- communicating with ICT – sharing and exchanging ideas, information and solutions with different audiences
- managing and operating ICT – applying technical knowledge and skills to use appropriate digital technologies to investigate, create and communicate.

Students develop ICT capability as they use digital tools to find and analyse information, communicate safely and effectively, and manage digital systems. They develop and apply social and ethical 'rules' to manage and operate ICT in many diverse ways.

For example in English, year 2 students access and develop texts that feature print, visual and audio elements using ICT. They consider how their texts can be shared with others and how their work may be used by others.

Another example is year 5 science, where students observe, measure and record data with accuracy using appropriate digital technologies. They operate different devices to undertake tasks and manage the data and information on different networks.

Year 8 students in design and technologies might use ICT to collaboratively generate ideas and develop plans. In groups or working alone, they select, compare and justify choices of information, materials, tools, equipment and techniques to effectively create solutions.

You can help your child develop ICT capability by:

- taking an interest in what your child is doing with ICT and asking them to show you how it works
- talking about safety and security issues relating to online activities
- talking about the positive ways ICT is used in family life and how decisions can be made about its use
- considering how ICT contributes to your child's problem solving and thinking skills.
